FIELD NOTIFICATION

Smarteeva Recall Management provides end to end Recall Management functionality. Our next-gen Recall Management solution delivers fast notification generation and approvals, as well as intelligent follow up forms and process tracking with the exclusive recall management portal.

♻ Recall Management (RM)

Smarteeva's customers are able to quickly and strategically deliver notice generations and approvals, as well as leverage intelligent follow up forms and process tracking to ensure a total complete feedback loop

⬙ Smarteeva Platform

Built on the first intelligence cloud based software that provides solutions in support of the Device Relationship Management (DRM) lifecycle. DRM software enables the monitoring, managing, and servicing of medical devices.
